“ We are so sorry that Dave passed but are glad that Dave was a part of our lives. Bill was the area manager for Dustrol which is a highway construction company that does hot in place recycling, cold milling & rumble strips. Bill met Dave when he hired him to build an office onto the existing building that Dustrol purchased on the northeast part of Pueblo. After that we had him & his crew replace window wells & consequently concrete work, rebuild our deck, paint the entire outside of the house & miscellaneous other jobs. The last project he & Bill worked on together was a flag pole for a US flag to fly in front of our house.

Bill called Dave occasionally to see how he was doing or to ask him if he knew someone who could do another project for us or even advice on something he wanted to do. We hired Claude & Richard Vasquez after Dave was semi-retired to do things for us at Dave's recommendation. Richard is still a part of our lives & we appreciate all the honesty Dave displayed & expected of his workers. What a beautiful soul he had & we will always treasure the friendship we found in Dave. God bless you Peggy and your family as we know you are going to really miss Dave. In attending the visitation & talking with you & your daughter we found the same kindness that Dave showed us & the service was the same with nothing but love for Dave in the spoken words as each person stood in front of us. We have been so blessed by all of our experiences with Dave & your family.
