“ Michael was a very special friend who was my ex brother in law. He was dedicated to whatever endeavor in front of him. He was one of my martial arts students. He was of a different style, but was hear to learn as much as he could. I can still smell the odor of his pipe lol. We shared a lot of great times while he was in college. Unfortunately o lost touch with him after graduation. Even though it has beens ages since I last saw him his passing hit home. Death smiles at us all. All a man can do is smile back. I am positive that is what Michael did.

“ Mike and I worked together and were friends for 30 years. Mike, being very knowledgeable in electrical utility systems and equipment mentored me when I was transferred to utilities in 1990. Mike would not have mentored just anyone, but he saw in me an enthusiasm and interest in learning the systems he knew so well. I was a construction electrician, prior to being transferred to utilities. I had no clue about utility systems, but Mike changed all that! There were times, when we would have our "differences" and we were quite vocal about it! Co-workers who observed these "differences" would ask: "are you two married!" I loved him like a brother, but at times I wanted to "take him outside!" Thanks to Mike, I had a very fulfilling and successful career in the electrical utility field. We stayed in contact often after his retirement, as well as after my retirement. We would share our interests and activities by phone calls or texts. However, when texting became too lengthy, Mike would text: "can you talk?" and we would complete our conversations talking on the phone, sometimes for hours! Mike was a true friend to me, and I will miss him dearly.
